

TerraLUX MiniStar2 Extreme

The Brightest LED Upgrade For the Mini Maglite®

TerraLUX products are not endorsed or made by Mag Instruments® nor are we associated with Mag Instruments® in any way shape or form. See disclaimer below.

Features

- 5 Watt* Luxeon K2
- 80-100 Lumens light output
- Easy Upgrade from Incandescent Bulb
- Never Needs Replacing
- Extends Battery Life 2X
- Pure White Light
- Consistent Brightness and Color Regardless of Battery Condition
- Maintains Variable Focus of Flashlight

Specifications

- **80-100 LUMENS**
TYPICAL OUTPUT
- **3-4 HOURS ON 2AA'S**
- **100,000 HR LIFETIME**
- **LUXEON 5W* K2 LED**
- OPERATES ON 2AA BATTERIES

What is the TerraLUX MiniStar2 Extreme (TLE-5K2)?

The **TerraLUX MiniStar2 EXTREME (TLE-5K2)** upgrades the Mag Instruments® MiniMaglite® 2AA flashlight to a near-tactical performance by replacing the incandescent bulb with the brightest Luxeon **5 Watt*** K2 LED available that provides 80-100 Lumens of light. The TLE-5K2 kit includes a replacement reflector and adds the TerraLUX LED Light Engine® to produce both a constant light intensity and a pure white light, avoiding the dimming and orange cast of an incandescent bulb. The PowerPush™ circuit also extends battery life by draining virtually all power from the 2AA cells. It keeps batteries out of landfills by running your flashlight longer and brighter! Note that the standard 1 Watt MiniStar2 gives a longer battery life and 50 Lumens of light output

What are the Benefits of the TerraLUX MiniStar2 Extreme?

1. **Brighter light, whiter light** and **constant light** output from the combination of the 5 Watt* Luxeon K2 LED and the PowerPush power management circuitry. The Luxeon K2 is the brightest 5 watt LED available and the PowerPush keeps it running at top performance even as the batteries get run down.
2. **Longer battery life** results from the **TerraLUX LED Light Engine®** built into the unit which drains nearly all the power from the batteries, while maintaining constant light output. ***If there's juice... it will light.***
3. **Nearly Indestructible** LED performance and lifetime operation. Rated for 100,000 hours of operation (10 years). This is likely to be the last bulb you will ever need to buy.
